
EXPLORE SOUTH RIVER

The Explore South River Project has been created by a group of enthusiastic businesses, artists and artisans from South River, ON who are collaborating to best represent a vibrant and thriving vision of South River to visitors and residents.

Mandate

To encourage visitors and residents to explore South River and by doing so to foster vitality in the South River area by contributing to the social and economic success of the region.

Mission Statement

The Explore South River Project will bring attention to South River by showcasing South River organizations and events, attractions and experiences with an arts, recreation, culture and learning focus.

What's Happening?

Short and Long-term Project Elements include but are not limited to: a FaceBook page to promote events, a printed map featuring community assets, collecting and celebrating community stories, a digital map that provides additional layers that come to life as users interact with the map, and one web domain / handheld app presenting community events, maps, resources and stories.

Project Overview

The project brings community stories to life and brings the value of arts, recreation, culture and learning experiences into sharp focus. It is a collaborative effort that invites participation from all sectors of the South River area: businesses, artists and artisans, event planners, municipalities, associations, retirees and seniors, youth and families, volunteers, performers, tourism resources, recreation and cultural assets, trails, parks and more. The project also aims to put information about what is going on in our community into the hands of every resident and visitor. Far more than a directory of services, the Explore South River project will create a blueprint upon which to grow new businesses, create and host new events, build new community assets, promote increased tourism visitation and grow new investment by businesses seeking to be established in a vibrant community with a thriving rural cultural landscape.

Get involved!
